Important Notice

The Town of Braintree will begin its water flushing program starting April 13, 2009. Hydrant flushing is a necessary step in improving our water quality since it eliminates accumulated rust and other deposits from our water system.

You may experience dirty water during this period. We recommend that you wait at least 24 hours after flushing occurs in your area to do any laundry.

The hours of flushing will be from 8:00pm until 4:00am Monday thru Friday and hopefully will have a minimal effect on the distribution system. Signs will be posted on MAIN STREETS in the areas where flushing will occur and the program should be completed by the middle of July.

Thank you for your patience and understanding during this important process. If you have any questions or concerns, please feel to call our office Monday-Friday between the hours of 8:30am and 4:30am.
